

Freeburg Elementary School Homework Policy

Grades 3-4

Purpose of Homework

There are several purposes for homework. At Freeburg Elementary School, homework is used to help students understand and review the work that has been covered in class, to see whether students understand the lesson, and to help students learn how to find and use more information on a subject. Homework can also serve as a communication link between school and home that shows what children are studying.

Schools in which homework is routinely assigned and graded tend to have higher achieving students. Homework should be necessary and useful, appropriate to the ability and maturity level of students, well explained and motivational, and clearly understood by students and parents. Homework should be tied to the current subject matter, assigned in amounts and levels of difficulty which students can complete successfully, and should be checked quickly, with feedback to students.

Freeburg Elementary School is eager to provide the best possible educational opportunities for all our students. These include physical facilities, professional and supportive staff, learning materials and other resources. Only about seven hours per day of a pupil's time is under the control of the schools. Therefore, parents and the public share the responsibility for educating children in all aspects of life. Homework, along with sports, special programs, and other activities is an important link in a total educational program.
